BY DEC 29, 2025**

APPLICATION DEADLINE JANUARY 9TH

ELIGIBLE PROJECTS

Make-Ready Sites

No site infrastructure upgrades required.
Available electrical capacity.

Rip & Replace Sites

Replace broken, outdated, or costly existing chargers.

Combination Sites

Replace existing chargers and add new ports using existing capacity.

FUNDING SNAPSHOT

- Flat \$8,500 per charging port
- Can cover up to 100% of eligible project costs
- Smart multifamily EV chargers and management platform included

Funding can fully cover:

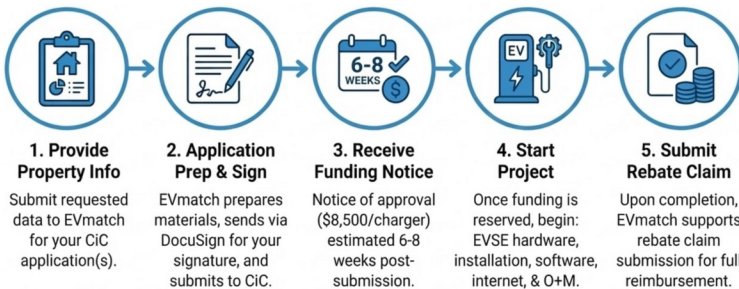

- New EV charging hardware
- Installation
- Multi-year charging software/network plans
- Operations and maintenance (O+M)
- Multi-year SIM/data plans

WHO THIS IS FOR

Do you own or manage a multifamily or community property that could benefit from EV charging?

Resilient Palisades is partnering with EVMatch to help qualifying sites apply for state funding before the program closes.

HOW THE PROCESS WORKS

NO COST, NO RISK TO APPLY

EVMatch's application support fee is waived for this opportunity.

No upfront cost and no obligation to move forward if your site qualifies.
