About

Founded in Los Angeles around 2008, Treepublic is a clean-tech provider specializing in residential, commercial, and industrial solar installations, battery storage, and EV charging across Southern California and the West Coast. Partnering with top equipment brands like Enphase, Treepublic delivers custom rooftop systems, commercial microgrids, and energy efficiency upgrades. Driven by an "educate first, build second" philosophy, they empower homeowners, businesses, and Fortune 100 clients to achieve grid independence.

Services & PUP Program Pricing

Solar Pricing	\$2.42 - \$2.73 \$/W
Battery Pricing	\$667 - \$3,280 per kWh
Brands Offered	Tesla Powerwall 3 13.5 kWh, Tesla PowerWall Expansion (2nd battery +), Enphase IQBATTERY-10C 10kW, Enphase 20kW, Enphase IQBATTERY-10C Expansion (2+), Enphase 5P 5kW, Enphase 5P 5kW Expansion (2+), SigEnergy 9kWh/27kWh/36kWh, SigEnergy SigStor 18kWh
Warranty	Treepublic provides a comprehensive 25-year labor and roof leak warranty alongside 25-year manufacturer coverage for PV modules and inverters. Batteries are backed for 10-15 years (or 6,000 cycles), and they actively coordinate to preserve any pre-existing roof warranties.
Other Services	Electrical and Energy Efficiency, Electric Vehicle Charger Installation
Testimonial	"Terrific every step of the way. They answered all my questions thoroughly and quickly and held true to everything they told me."
