About

Founded in Ojai, CA in 1986 and now proudly based in Ventura, California Solar Electric has over three decades of experience delivering high-quality solar, battery backup, and EV charging installations for both residential and commercial clients. We understand that every home and business has unique energy goals. That's why we design customized solar and energy storage solutions tailored to your specific needs. Lowering your electric bill, ensuring backup power, or charging your electric vehicle.

Services & PUP Program Pricing

Solar Pricing	\$2.45 - \$2.75 \$/W
Battery Pricing	\$880 - \$1,200 per kWh
Brands Offered	Tesla Powerwall 3 13.5 kWh, Tesla PowerWall Expansion (2nd battery +), FranklinWH Apower S 15kWh
Warranty	CA Solar Electric offers a minimum 10-year workmanship and roof-penetration warranty alongside standard manufacturer coverage—including at least 10 years for core equipment and 25 years for solar module performance. Final terms, labor obligations, and boundaries regarding existing roof conditions are explicitly documented in the customer agreement before signing.
Other Services	Home Energy Management, EV Charger Installation, Existing System Evaluation, Solar Panel Cleaning
Testimonial	"My neighbor's power is out right now, and I had to call you to let you know mine is on! Thank you very much!"
